

Review your security program.

Has your security program been reviewed by a Board Certified Security Professional? Your risk management program needs to include audits and reviews in order to protect your organization's valuable assets. JD Security Consultants will provide the detailed reviews you need to implement effective risk control.

PROTECT YOURSELF & YOUR ORGANIZATION BEFORE DISASTER STRIKES.

- Corporate Security Management
- Security Systems Development
- Access Control Management
- Compliance Management
- Human Resource Security Management
- Security Incident Management
- Communications and Operations Management
- Organizational Asset Management
- Physical and Electronic Security Management
- Security Policy Management
- Disaster Recovery Plan and Business Continuity

Have you considered?

- How long ago was your security/risk management program reviewed?
- Has there been significant changes in your organization, i.e., more personnel, expanded operations, new locations, etc.?
- Has there been any changes in your security-related losses?
- Are you aware of updated or new security technologies (visitor management systems, IP cameras, video analytics, remote monitoring, etc.)?

Let us review your security program to increase your protection against risks. Call JD Security Consultants, LLC at 610.269.8086 to learn the details you need to know to fully protect yourself and your organization.
